Bernhardt Design is a family-owned business operating in the foothills of the Blue Ridge Mountains of North Carolina, a location endowed with earthly riches – clean air, pure water, and an abundance of natural resources. In order to protect and preserve these natural treasures, Bernhardt Design is committed to environmental excellence in all business activities – from the design of products to the manufacturing facilities and processes – and is dedicated to instilling high environmental values in its employees.

In addition to complying with all state, federal, and local regulations, Bernhardt Design has long-standing corporate policies to provide a safe and healthful workplace while conserving energy and natural resources. These policies cover the reduction of emissions, water, energy, waste and packaging materials, use of renewable and sustainable materials, employee training and involvement, supply chain management and the pursuit of environmental certifications.

Bernhardt Design is pleased to confirm that the following products listed will meet the Healthier Hospitals - Safer Chemicals Healthy Interiors Guidance, which requires that these products:

- Have no chemical flame retardants (and comply with TB117-2013);
- Have no antimicrobials, unless added to raw materials for the sole purpose of preserving the product;
- Have no long- and/or short-chain per- and poly-fluorinated alkyl compounds and no fluorinated polymers used as stain, water, or oil resistant treatments;
- Comply with ANSI/BIFMA e3-2014 Furniture Substantiability Standard, Sections 7.6.1 and 7.6.2 as can be seen at <https://level.ecomedes.com/?query=Bernhardt%20Design>.
- Contain less than 1% (one percent) of polyvinyl chloride (PVC) by weight, excluding electrical components*.

Meeting these criteria will not incur any implications for our clients, with regard to cost, lead/delivery time, or warranties.

Additionally, we confirm the following information about our products and verification process:

- Bernhardt uses a chemical analysis program that incorporates the TRACI chemical impacts, the BIFMA chemical of concern list and the EPA's eco-tox database. As new items are reviewed in this tool and any red flag chemicals are spotted there is a vetted review process that requires that alternatives if available are searched for and if no alternatives or different process is available it requires an executive signature saying that the chemical can be used.
- All statements are made based on textiles being products that are under our control, if a customer uses other textiles or COM materials we cannot make any claims about them.
- All statements about BIFMA levels is third party certified by NSF and the details for each product can be found at: <http://info.nsf.org/Certified/Sustain/Listings.asp?Company=C0049563&Standard=BIFMAE3>

Bernhardt Design has the goal to provide a variety of seating, conference and multipurpose furniture solutions for the health care clients and the design community.

Furniture and Textiles described herein meet the Healthy Interiors goal of the Safer Chemicals Challenge according to the manufacturer. Practice Greenhealth does not verify manufacture information. For further information on these products, material specifications or to order samples, please contact Bernhardt Design at 1-828-758-9811, bgreen@bernhardt.com or visit bernhardtdesign.com.

compliant products

Bernhardt Textiles has the goal to provide a variety of classic textural and graphic upholstery woven and coated fabrics to our clients that are free of flame retardant chemicals. In addition, in accordance with the goals of the Healthcare Without Harm program, the products listed below meet the criteria stated in the Healthy Interiors criteria, Version 2.3. All listed products are free of formaldehyde, perfluorinated compounds, PFAS, PVC, antimicrobials and flame retardants. Fabrics described herein meet Health Care Without Harm's Healthy Interiors criteria according to the manufacturer. Health Care Without Harm and Practice Greenhealth do not verify this information. For further information on these products, material specifications or to order samples, please contact Bernhardt Textiles at 1-877-639-0728 or visit bernhardttextiles.com.
