# The XOi Platform: Business

When a tech uses XOi in the field, they seamlessly collect essential job site data, asset information, and find and fix issues the first time.

## Technician Empowerment

XOi empowers technicians to safely capture critical job site information, launch on the job remote support, access relevant equipment documentation instantly, and provide customers photos and videos of recommended and completed work.

## XOi Results

Contractors who use XOi typically see

35%	increase in completed service requests
40%	reduction in second truck rolls
80%	reduction in customer credits
