

Get on top of investigation and litigation risks faster

Troubling employee or shareholder accusations, rumblings of a fraud investigation, or a bet-the-company lawsuit can send legal and investigations teams into a pressure-filled risk assessment mode. With business, legal, reputational and stock price impacts looming you must get on top of the situation fast to make decisions on strategy. How in the world are you going to cut through all the data to figure things out and not miss critical facts?

H5 Key Document IdentificationSM is a proven technology-enabled service that helps you make strategic decisions earlier, get armed with fact narratives faster, and manage costs right from the start.

GET TO FACT NARRATIVES FASTER

Traditional manual review, and even TAR, can net sizable document sets that you still must wade through to find information that is harmful or helpful to your emerging narrative. H5 experts rapidly surface key documents on your priority themes in as little as a few days so you can develop fact narratives faster for effective early interviews, depositions, and negotiations.

MANAGE COSTS RIGHT FROM THE START

The legal world has changed – your team operates on tighter budgets, with an unwavering focus on efficiency. With Key Document Identification, you get a tightly-nuanced on-target document set to lower review time and costs. Search strategies and assets are often re-usable to lower costs across the portfolio.

MAKE STRATEGIC DECISIONS EARLIER

You want to quickly get to the heart of the matter, but face a mass of unstructured data. A method for quickly finding the key documents buried in the data would sure speed-up your assessment.

H5 search experts use linguistics, analytics, and powerful technology to surface key documents early on so legal teams can make informed decisions earlier on risk, strategy, and resources.

H5 consistently delivers key documents representing <1% of total documents.

“[H5] helped us find what we needed, faster than we ever could have-and the best part is that we didn’t have to pay an arm and a leg to get the job done.”

Reduce Risks of Missing Critical Information

You'll find targeted search is much more efficient than linear review for rapidly surfacing key facts. H5 experts work with you to define discrete fact-finding themes upfront. Key documents are then rapidly surfaced using analytics and a net of granular, targeted searches as part of a comprehensive investigative strategy for interrogating the data in our powerful technology platform.

Faster Results

H5 delivers high-priority key documents in a matter of days, with the remainder following in a few weeks. Traditional linear review typically takes months.
