3. To open the eBook, tap the cover.
The eBook will automatically be removed on the expiration date.

To download an assigned eBook for offline use:

1. While online, from the bottom or side of the screen (depending on your device), tap **DOWNLOADS**.
2. Below the appropriate book, tap **DOWNLOAD NOW**.

To access a downloaded eBook:

1. From the bottom or side of the screen (depending on your device), tap **DOWNLOADS**.

Note: Many titles can only be downloaded on one device at a time, so you might need to remove the book from one device before you can access it on another. To remove a downloaded title, tap **DOWNLOADS** at the bottom or side of the screen (depending on your device), and then tap **Remove**.
