

\$500

REBATE PER ROW

ACT NOW — LIMITED TIME ONLY

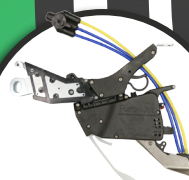

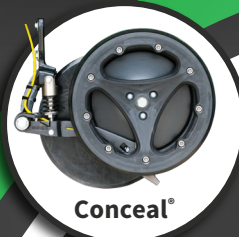

Team up with AgroLiquid® and Precision Planting® for SMART START

Precisely prescribed crop nutrition and perfectly calibrated planters.

Precision Planting's FurrowJet®, Conceal®, vApplyHD®, and Flowsense™ technology, combined with AgroLiquid's full line of high-efficiency liquid fertilizer, will give you a Smart Start on the 2023 season. Adjusting your fertility program to the plant's needs will help you maximize your nutrient dollar and profitability.

For a limited time only, AgroLiquid will partner with you by offering a \$500 per row rebate to enable your planter to use Precision Planting technology and the best liquid fertilizer products on the market.

\$500 REBATE PER ROW

Join the many other growers taking advantage of this program. ACT NOW!

To earn the Smart Start \$500 rebate per row, you simply need to agree to a \$600 minimum purchase per row of Precision Planting's FurrowJet, Conceal, vApplyHD, or Flowsence technology, before **February 28, 2023**. You also commit to supplying your crops with the best crop nutrition possible with a minimum purchase of 250 gallons per planter row of any combination of AgroLiquid phosphorus, potassium, secondary, and/or micronutrient products for both the 2023 and 2024 cropping seasons.

Want to realize a \$750 per row rebate? Simply increase your fertilizer order to 500 gallons per planter row for any combination of AgroLiquid phosphorus, potassium, secondary, and/or micronutrient products.

Act now to take advantage of this rebate! Contact your local AgroLiquid representative or Precision Planting dealer today to sign up and receive a complete list of terms and conditions.

Deadline is February 28, 2023!

Smart Start

Effective August 24, 2022 to February 28, 2023

To earn the Smart Start \$500 rebate, you simply need to agree to a new equipment purchase minimum of \$600 per row for conversion to Precision Planting's Furrow Jet®, Conceal®, vApplyHD® or Flowsense™ technology, before February 28, 2023. You also commit to supplying your crops with a minimum purchase of 250 gallons per planter row for any combination of AgroLiquid phosphorus, potassium, secondary and/or micronutrient products for both the 2023 and 2024 cropping seasons. Want to realize a \$750 per row rebate? Simply increase your fertilizer order to 500 gallons per planter row for any combination of AgroLiquid phosphorus, potassium, secondary and/or micronutrient products.

Qualifications:

Orders from any current published pricelist can be used toward the **Smart Start** required criteria

- Place orders between August 24, 2022 and February 28, 2023
- Standard payment terms apply
- Delivery must take place in accordance with program on qualifying order

Program Procedures:

- Orders from any current published price list can be used toward the Smart Start required criteria
- To earn \$500 per planter row, place a minimum order of 250 gallons per row for any combination of AgroLiquid Phosphorus, Potassium, secondary and or micronutrient products
- To earn \$750 per planter row, place a minimum fertilizer order of 500 gallons per row for any combination of AgroLiquid Phosphorus, Potassium, secondary and or micronutrient products
- The Retail Partner will complete and submit the "Verification of Conversion," along with proof of purchase for Precision Planting conversion equipment by February 28, 2023. Proof of Purchase (**Invoice**) must show an itemization of the new components purchased supporting a minimum of \$600 per row to make the conversion, the cost paid by the customer, the date of purchase, and verification of payment.
- The rebate will be issued directly to the grower once AgroLiquid has received all required documentation with verification that all fertilizer has been delivered and the Retail Partner has been paid according to the guidelines of the program on qualifying orders.
- The product deadline for fertilizer delivery is dependent upon sales program of qualifying orders
- AgroLiquid's Programs Administrator will provide occasional courtesy follow-ups to ensure the success of the program.
- **Smart Start offer is only good with Precision Planting technologies listed above.**
- All qualifying gallons are subject to program pricing of order. Any gallons not paid or delivered by the deadlines agreed to within order program are subject to re-pricing and/or cancellation.

Prices and programs are subject to change without notice. While we will make every effort to notify you of adjustments to pricing, program structures and schedules, agricultural market conditions may necessitate change.
