GO BEYOND STANDARD SAFETY NOTIFICATIONS

Speed Warnings

Proactively warn drivers of known speed violation zones

Parking Availability

In-cab alerts for drivers with available parking count

Custom Zones

Tailor-made alerts that align with your safety initiatives

Safety Insights

Actionable insights to identify risky driving behavior

REDUCING SPEEDING THROUGH DRIVER AWARENESS

Drivewyze has mined targeted speed zones by citation history and truck speeds to proactively warn drivers of known speed violation zones. Drivewyze in-cab notifications appear when & where drivers need them most and have been proven to reduce over-speeding events by over 15%.

NOTIFY DRIVERS OF PARKING AREAS AND AVAILABILITY

Notify drivers when they are approaching a parking area, and the availability of parking. This reduces the stress and uncertainty of finding a safe place to park within hours of service. Alerts are available in: IA, IN, KS, KY, OH, MN, MI, VA, and WI.

GET ACCESS TO ALL OUR SAFETY NOTIFICATIONS WITH DRIVEWYZE SAFETY+

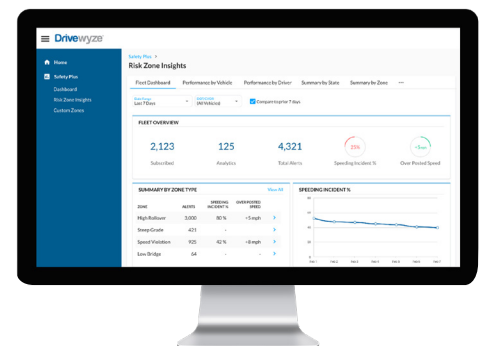

Sign up for Drivewyze Safety+ and get access to Drivewyze Safety Notifications, our curated & always-on in-cab notifications for tight curves, low bridges, and steep mountain corridors.

IMPROVE SAFETY THROUGH ACTIONABLE INSIGHTS

Safety+ also includes a dashboard-based reporting and analytics tool designed to help you monitor fleet-wide risk trends.

- *Identify your best performers*
- *Proactively reinforce your driver coaching program.*
- *Includes a full set of reporting APIs for data integration*

BUILD, DISTRIBUTE, AND ANALYZE YOUR CUSTOM SAFETY ALERTS

Safety+ also includes Custom Zone alerts. This feature gives you the power to customize location-based notifications for their drivers based on your fleets own needs. Create custom alerts with user-friendly geo-fencing and template tools. You can also analyze your custom zone data for driver coaching.

Location Specific | *Customizable* | *On-demand*

Examples include warning your drivers about unsafe areas, jurisdiction-based regulations, toll avoidance, and emergency information.
