

Unlock Explosive Growth with Videeo for Shopify and Boost Your Sales Up to 6x

Say goodbye to complex setups and hello to a streamlined live selling experience that maximizes conversions.

Effortlessly incorporate live selling with Shopify by simply adding Videeo to your existing framework without changing any existing layouts or functionality, for a hassle-free solution to drive more sales.

Why Use Videeo For Shopify?

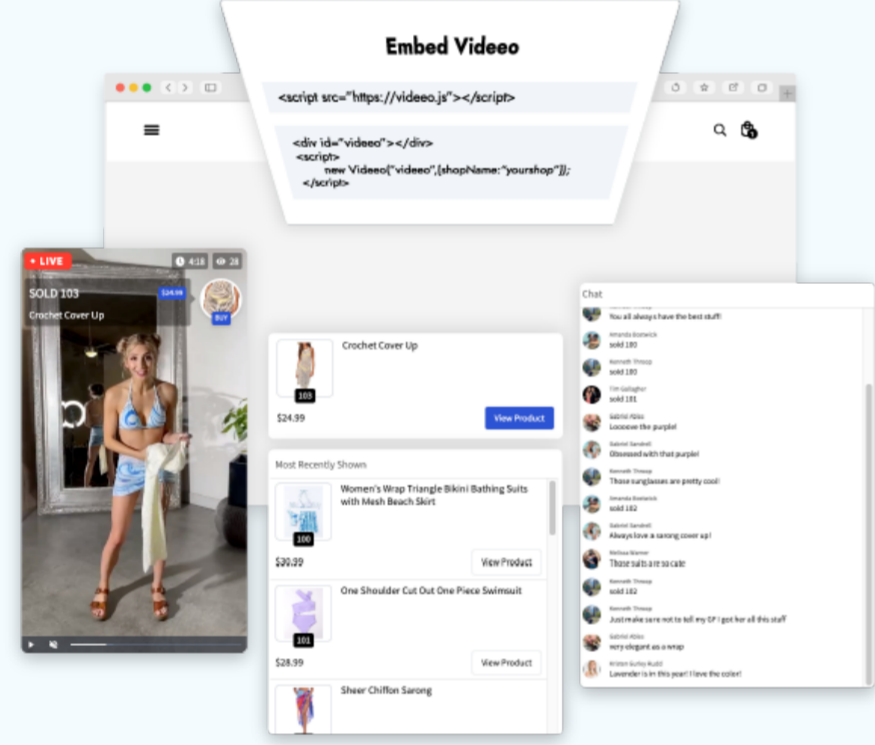

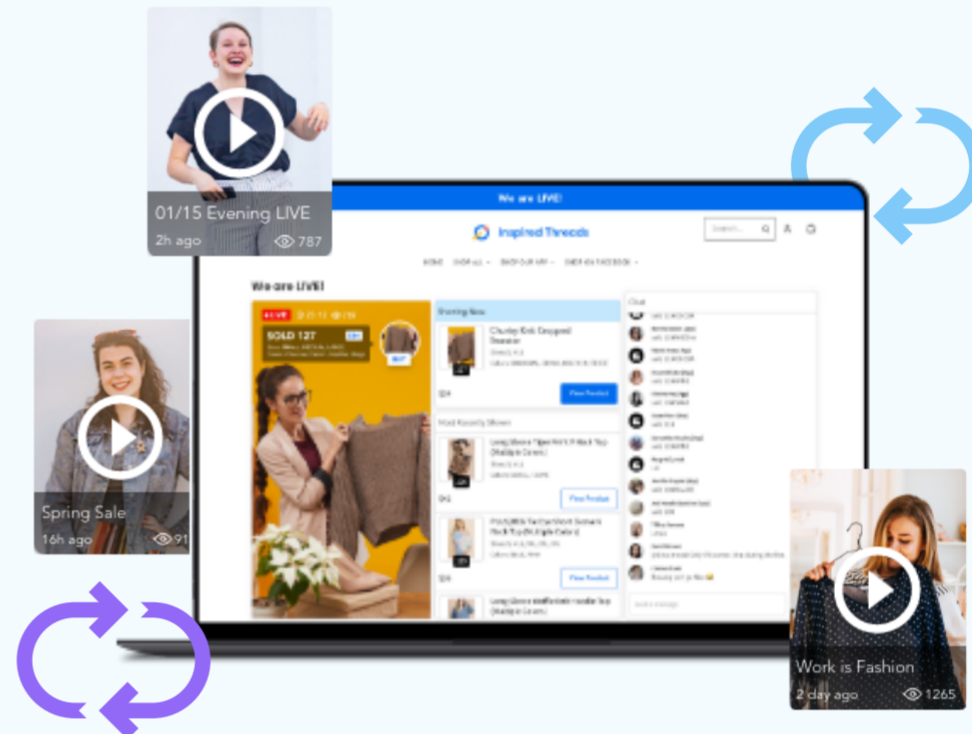

Interactive Live Selling

Videeo's dynamic overlay enhances shopper engagement by updating product information in real time. The mini-player follows shoppers around during a live, ensuring they never miss a moment.

Sell 24/7

Videeo's technology autogenerates shoppable replays without you lifting a finger, so your followers can shop any time they visit your Shopify website!

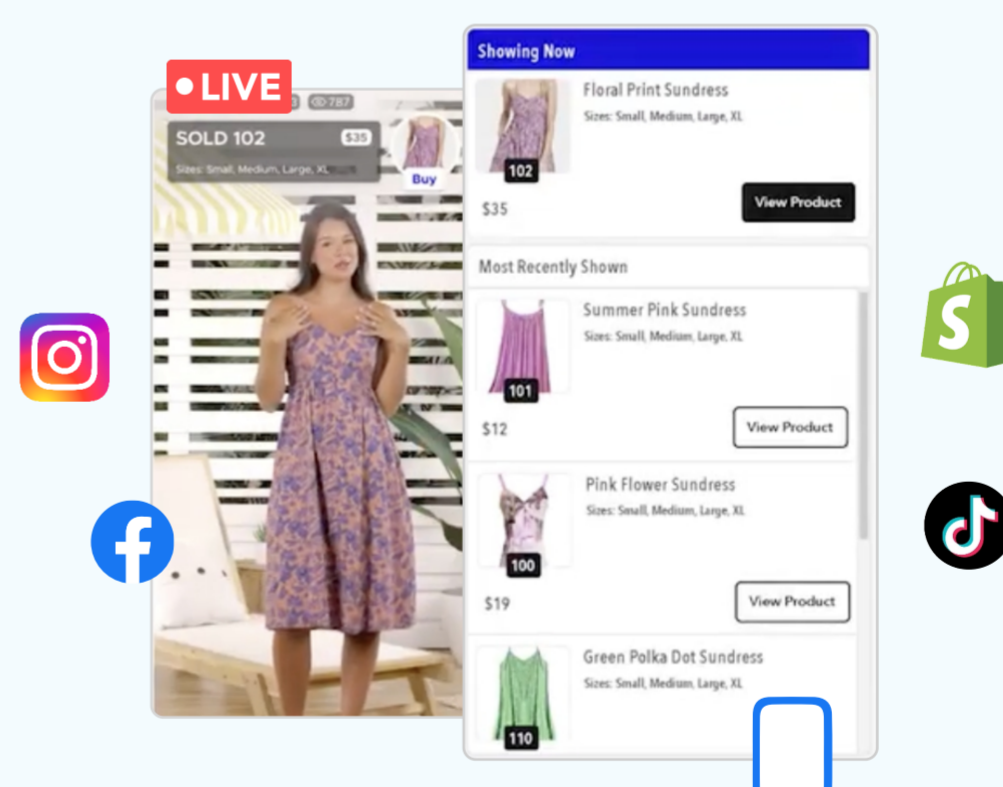

Seamless Integration

Videeo integrates with just a few lines of code, leaving your existing systems intact. Inventory, payments, and fulfillment are managed through Shopify, so you get full control over your data.

Simultaneous Multichannel Streaming

Videeo multicasts your lives to your Shopify website, existing mobile app, Facebook, Instagram, and TikTok.

How to Boost Your Shopify Sales With Videeo

1) Install the app

Add the Videeo app from the Shopify App Store. This connects Videeo's live sale player and mini-player to your Shopify site.

2) Connect to Social

Link Facebook and Instagram to simultaneously stream your live sales on your accounts.

3) Go Live

Stream your live sale to your Shopify site and social media channels at the same time!
