

AGELOC WELLSPA iO SYSTEM

ageLOC WellSpa iO system delivers more of the benefits everybody needs to thrive. It's a personalised beauty, wellness & self-care device system to revitalise, restore, and relax to help you look and feel your best.

MEET AGELOC WELLSPA IO SYSTEM

Welcome to the future of self-care. ageLOC WellSpa iO System inputs (i) smart self-care and outputs (o) visibly firmer and tighter skin for a more youthful, vibrant appearance

The system benefits centre around three main Rs: Revitalise, Restore, and Relax. Whether it is to **Revitalise** your skin's appearance for a self-confidence win, **Restore** your overall feeling of wellbeing, or **Relax** your body after exercise or a long day - elevate your beauty and wellness rituals with the power of ageLOC WellSpa iO System.

This exclusive device system boasts ageLOC cosmetic products that deliver scientifically proven benefits you can feel and see, an IoT-connected app that serves as a guiding companion, and a personalised adaptive microcurrent technology integrated in the device to comfortably adjust the intensity of the current to your skin conductivity in real time.

Unleash your unique confidence with a little help from ageLOC WellSpa iO system.

WHY YOU'LL LOVE IT

REVITALISE BENEFITS

ageLOC WellSpa iO device + ageLOC Body Serum

- Revitalises your skin's appearance promoting a feeling of self-confidence.
- Designed for skin with an appearance of cellulite, it helps visibly firm and contour skin to deliver radiant, smoother looking skin.
- Visibly firms and tightens skin on thighs, abdomen and arms for a more youthful appearance.
- Helps nourish the skin by promoting clear, smooth and healthier-looking skin.
- Helps improve the appearance of sagging skin for toned and sculpted-looking skin.
- Evens skin tone for a visibly brighter, vibrant skin.
- Hydrates and helps reduce crepey looking skin.
- Targets the sources of the visible signs of skin ageing to preserve the look of youth and reduce the appearance of skin ageing thanks to ageLOC ingredients.

RESTORE BENEFITS

ageLOC WellSpa iO device + ageLOC Body Activating Gel

- Restores overall feeling of wellbeing for better holistic wellness.
- Helps improve circulation in the skin layers and connective tissue thanks to the movement of the device over the skin that helps massage the skin.
- Helps depuff the skin's appearance for a smooth look through its manual massage movement.
- Supports overall feelings of wellbeing, helping you look and feel better.
- Helps you feel more centred and balanced.
- Targets the sources of the visible signs of skin ageing to preserve the look of youth and reduce the appearance of skin ageing thanks to ageLOC ingredients.

RELAX BENEFITS

ageLOC WellSpa iO device + ageLOC Body Activating Gel

- Supports your body for better pre and post workout feeling.
- Provides a great pre-workout manual massage, helping your muscles feel invigorated and ready to go.
- Provides a great post-workout manual massage, helping relax sore muscles and encourage overall relaxation.
- Helps you feel refreshed and unwind after a long day.

DEVICE FEATURES

- The surface design provides a smooth, comfortable experience.
- The unique US patent-pending metallic node design was created to optimise current flow and help provide a smooth, comfortable manual massage while contributing to skin stimulation. It's designed to perfectly fit the contours of your body and glide smoothly over your skin.
- The patent-pending¹ adaptative biphasic pulsing microcurrent continuously and comfortably adjusts to your skin in real time—for an optimised, just-for-you WellSpa iO system session every time.
- The silicone sleeve was designed to make cleaning simple and minimise mess.

NU SKIN VERA APP FEATURES

- Customises and complements as you revitalise, restore, and relax. Leads you every step of the way with real-time, guided tutorials.
- Gives you a personalised iO Score to help you stay motivated and reach your beauty & wellness usage goals.
- Helps track your unique usage for fun, incentivising badges.
- Offers Easy Reordering so you always have your products on hand.
- Offers ongoing optimisation through both app and device updates.

CLINICAL RESULTS THAT PROVE IT REVITALISE STUDY

An in vivo study has been conducted on female subjects between 25–60 years of age with mild to moderate cellulite on their upper thigh, upper arms and/or abdomen who were recruited to use an ageLOC WellSpa iO regimen. 33 of them used the following regimen: ageLOC Body Polish as an exfoliating cleanser, three times per week, in the above areas, the WellSpa iO device with ageLOC Body Serum for three minutes, three times per week, and ageLOC Dermatic Effects twice daily. Each area was evaluated by clinical grading and self-perception at baseline and weeks two, four, eight, and twelve. The back of the upper thigh was also evaluated by Cutometer instrumentation at these same time points.

The Cutometer results illustrating the improvements in skin firmness and elasticity on the thigh are presented below.

The clinical grader assessed the appearance of cellulite for each area. Below is a representation of the changes seen on the thigh.

Subjects also noted improvements in their skin's appearance within the following attributes for each area:

- Cellulite
- Firmness
- Contouring
- Overall appearance
- Smoothness
- Hydration
- Tightness

As part of the same study with another group of 32 female subjects among the participants following the Revitalise regimen, our research has also illustrated that with increased frequency of using the ageLOC WellSpa iO device + ageLOC Body Serum (maximum 5 times a week) and timing (5 minutes per body area), benefits can be seen more quickly and with better results through 12 weeks.

HOW TO USE IT

Before use, please refer to the ageLOC WellSpa iO system manual for safety information and the Vera app for usage directions.

Whichever routine you choose, we formulated our luxurious, leave-on products with ageLOC ingredients that targets the

visible signs of skin ageing to preserve the look of youth.

REVITALISE REGIMEN

ageLOC Body Polish + ageLOC WellSpa iO device + ageLOC Body Serum + ageLOC Dermatic Effects

Use three times per week to daily. After cleansing with ageLOC Body Polish in the shower and patting your skin dry, apply a sufficient amount of ageLOC Body Serum onto the target areas (e.g., upper arms, upper thigh/buttock, or abdomen) and begin your ageLOC WellSpa iO session. Lightly glide the device over the skin up towards the center of your body and back down in slow, circular movements. Reapply serum as needed during the session to ensure smooth, continuous connectivity between the skin and device. Massage any remaining serum into the skin. As the final step, apply ageLOC Dermatic Effects by massaging it in a firm, upward circular motion.

RESTORE & RELAX REGIMENS

ageLOC WellSpa iO device + ageLOC Body Activating Gel

Apply a sufficient amount of ageLOC Body Activating Gel to the desired target areas on clean skin. Use with your ageLOC WellSpa iO device.

For the Restore regimen, lightly glide the device on the body area in long, upward strokes. Then rotate the device to move to the next section until the entire body area has been covered. Massage any remaining gel into the skin. Use up to once a day.

For the Relax regimen, lightly glide the device on the body area in slow, upward circular strokes paying special attention to areas that are tight. Then rotate the device to move to the next section until the entire body area has been covered. Massage any remaining gel into the skin. Use up to once a day.

NOTE: Connect to the Nu Skin Vera app or see the ageLOC WellSpa iO manual for complete usage details.

WHAT POWERS OUR AGELOC PRODUCTS

AGELOC BODY SERUM

ageLOC Body Serum is used with the ageLOC WellSpa iO device and was formulated for skin with an appearance of cellulite. It supports visible contouring, improvement of skin brightness and overall skin appearance. Not only can it help visibly firm and tighten the skin, but it also features a blend of hydrating ingredients that supports skin smoothness and improves the appearance of crepey skin for a more youthful appearance.

- **Body Silhouette Blend** - a carefully-crafted blend of botanical ingredients designed for skin with an appearance of cellulite. The blend targets multiple factors to reveal a firm, contoured and lifted skin appearance.
- **AI Peptide** - a unique natural oligopeptide identified via AI to improve appearance of skin firmness and smoothness.
- **Caesalpinia Spinosa Fruit & Kappaphycus Alvarezii Extract** - to help improve skin firmness and smoothness.
- **Skin Conditioning Blend** (Sunflower, Macadamia, Allantoin, and Panthenol) - to help improve the overall appearance of skin.
- **ageLOC Blend** - a proprietary ingredient blend that targets the visible signs of skin ageing to preserve the look of youth.

AGELOC BODY ACTIVATING GEL

ageLOC Body Activating Gel leaves a cooling sensation with your Restore and Relax ageLOC WellSpa iO routines. It's formulated to work with the ageLOC WellSpa iO device.

- **WellBe Blend** - a carefully crafted blend of Crithimum Maritimum and Ashwagandha Root Extracts (Withania Somnifera Root Extract) that helps target the overall feelings of wellbeing.
- **ageLOC Blend** - proprietary ingredient blend that targets the visible signs of skin ageing to preserve the look of youth.

LEARN MORE ABOUT IT

How do you integrate beauty & wellness in one device system?

We consider our bodies like an ecosystem and want holistic solutions that complement our evolving personal wellbeing needs. The ageLOC WellSpa iO system does just that. From the amazing ageLOC formulas to the unique design of the device, adaptive microcurrent and connected iO experience, the ageLOC WellSpa iO system provides revitalising, restoring and relaxing beauty and wellness benefits that help you look and feel your best.

How is ageOC WellSpa iO System unique?

ageLOC WellSpa iO system is a reimagination of the at-home spa experience. The accompanying topicals (ageLOC Body Serum and ageLOC Body Activating Gel) are a seamless leave-on experience with carefully selected ingredients. At the same time, ageLOC Body Polish provides complementary benefits of cleansing and polishing the skin for a smooth, radiant finish while ageLOC Dermatic Effects works to improve the appearance of skin firmness as your daily body contouring lotion. The ageLOC WellSpa iO device incorporates one-of-a-kind, patent-pending metallic nodes that help provide a smooth, comfortable massage while contributing to skin stimulation. This unique design of these metallic nodules optimally fit the contours of your body and glide smoothly over your skin. The device also utilises an adaptive micro-current (adaptive biphasic pulsing microcurrent) that continuously adapts to the changes in your skin conductivity throughout each session to provide you with an optimal, personalised, and comfortable experience. This system not only helps contour and beautify the skin, but it also revitalises for an overall uplifting experience and empowers you to personalise your beauty and wellness journey.

How does the microcurrent in ageLOC WellSpa iO differ from ageLOC Galvanic Body Spa?

ageLOC Galvanic Body Spa utilises a pulsing direct current. ageLOC WellSpa iO on the other hand, utilises an adaptive micro-current. This is a biphasic pulsing current that continuously adapts to the conductivity of the skin in real time. The ability to adjust to the skin's conductivity allows the device to provide the optimal current intensity without compromising comfort.

What is the maximum amount of time recommended to use the ageLOC WellSpa iO system?

You may use your ageLOC WellSpa iO device system for up to 5 minutes, per body area. Please make sure to follow the usage instructions.

Why are there different usage movements for ageLOC WellSpa iO?

Those looking to revitalise their appearance will want to use movements that are directed up and/or inward while providing some gentle massaging of the area to help improve the appearance of the skin. Those looking to restore their wellbeing and target an entire area (e.g., the whole thigh, the entire arm) are recommended to focus on basic upward and inward movements. During a relaxing routine, specific muscles groups are being targeted through gentle massage to help them relax. Therefore, smaller, circular, upward/inward motions are desired.

Why do the metallic nodes have such a unique shape?

The ageLOC WellSpa iO device's one-of-a-kind metallic node design was created to help provide a smooth, comfortable manual massage that contributes to skin simulation. The device was designed to optimally fit the contours of your body and glide smoothly over your skin.

Do I have to connect with the app to use my ageLOC WellSpa iO?

You'll still enjoy all the great beauty and wellness benefits if you don't connect. However, ageLOC WellSpa iO is created to connect so you'll want to benefit from all the features developed exclusively for you, including personalised usage goal setting, guided tutorials, customised routines, and usage tracking.

How do I know which routine is right for me?

You know your beauty and wellness needs best, and there are plenty of routines to choose from once you're in the Vera app. Feel free to try them all to get all the amazing benefits we're sure your skin and body will love.

How does ageLOC WellSpa iO device support Nu Skin's commitment to sustainability?

As responsible stewards of our planet, we have designed the ageLOC WellSpa iO Device with a rechargeable battery increasing the device's longevity. Please check your local device recycling capabilities and recycle where possible. Please visit www.nuskin.com/sustainability for more information and details on how to recycle
